Dhiva - Create a Chart

Step 1: On the **Create Report** screen, drag the desired attributes from the left panel onto the Row, Columns, Page, and Filters areas.

Step 2: Click **Generate**.

The screenshot shows the 'Create Report' interface with the following data table:

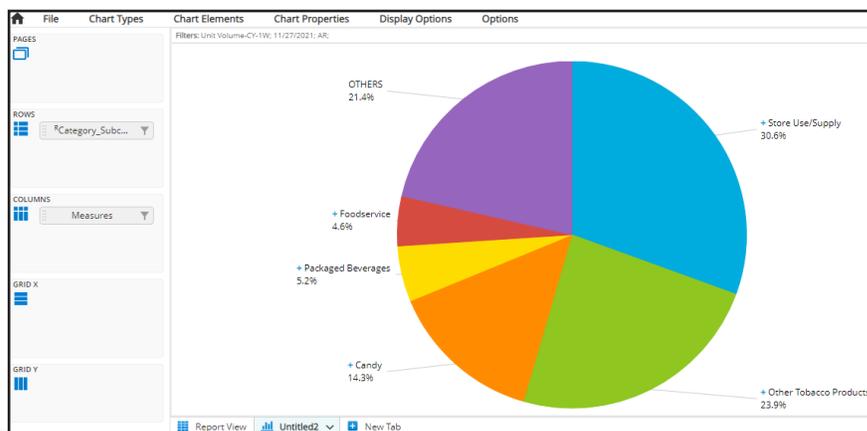

CATEGORY	SUBCATEGORY	UNIT VOLUME-CY-1W
Foodservice	Foodservice-Seafood	17.0
Other Tobacco Products	Other Tobacco Products-Pipes	12.0
Frozen Beverages	Frozen Beverages-Frozen Carb. Beverages	2.0
Cold Beverages	Cold Beverages-Fountain Non Carbonated	2.0
Wine	Wine-All Other	2.0
Health & Beauty	Health & Beauty-Cosmetics	1.0

Annotations in the screenshot: 1 points to the 'Geo-Attributes' section in the left panel; 2 points to the 'Generate' button in the top right; 3 points to the 'New Tab' button at the bottom of the table.

Step 3: After the report is generated, click the **New Tab** placed beside the Report View tab.

Step 4: Select the appropriate **Chart Type** from the menu. Options may be limited based on the data in the report view.

Step 5: The system processes the request and presents the report in the selected chart format.
